

DISCUSSION TOPICS

Work in small groups and discuss...

- Why is resilience important?
- What are the differences between protection and resilience?
- Give an example of resilience that you have noticed in your everyday surroundings.
- Give an example of non-resilient behaviour that you have noticed in your everyday surroundings.
- Which dimension(s) of resilience are relevant for critical infrastructure? What are the differences? What do they have in common?
- What is the relation between community resilience and critical infrastructures?
